## Overview

### Licensing Lawyers in India

**Licences serve as irreplaceable means of sharing technology, innovation and artistic content. In fact, organisations invest in IP assets that can be readily licensed out and often entire businesses are tailored on the licensing pattern.**

#### LICENSING ACROSS INDUSTRIES

Be it media and entertainment that rely on third-party owned and protected content, the standards-driven telecommunications industry or information technology, licensing is pervasive across virtually all industries, and it is ubiquitous even in business-consumer interaction.

With the prevalence of international standards, licensing has transcended the discretionary and entered the realm of 'essential', heralding jurisprudential development in fair, reasonable and non-discriminatory (FRAND) terms in licence agreements. Generally, however, besides certain laws common across agreements such as law of contract, taxation and competition laws, licences must comply with and incorporate intricacies pertinent to the relevant intellectual property regime.
