

Overview

The objective of the Design law in India is to strike a balance between protection of registered designs and promotion of design activity. Design protection is granted to new or original designs which appeal to the eye.

BENEFITS OF DESIGN REGISTRATION

Registration of designs confers significant commercial advantage on the owner. Application for registration of a design must be filed before any commercialization or public display of the article. Prior public display or commercialization can disentitle the owner.

Design registration in India takes relatively less time to obtain compared to other forms of intellectual property. The term of protection for a design is 10 years which can be further renewed for a period of 5 years.

India is a signatory to the Paris Convention for the protection of Industrial Property and the Agreement on Trade Related Aspects of Intellectual Property Rights (TRIPS).

OUR DESIGN LAW SERVICES

Our experienced design lawyers provide comprehensive services including Prosecution, Enforcement and Advisory services. We handle design prosecution covering everything from industrial products, handicrafts, technical and medical instruments, watches and jewelry, houseware, electrical appliances, automotive products, etc.

A registered design owner can file a civil lawsuit for injunction to restrain infringement of a registered design. Criminal remedies are not provided under the law.

Need a design lawyer in India? Our team helps protect and enforce visual designs with fast registration and deep industry-specific experience.
