

Conference on "Disruptive Innovation"

Thought Leadership • March 11, 2018

A conference on "Disruptive Innovation" was held in New Delhi on 10th March in the presence of over 150 CEOs. With disruptive innovation reshaping the world we live in every day, Safir Anand and Twinky Rampal cracked the concepts of Haptic technologies, Artificial Intelligence, 3D printing, Virtual reality, Robots, Avatars, Business models and much more. The conference also addressed industry-wide issues ranging from automobile, medical, retail, manufacturing and hosted over 150 CEO's, enthralled to be a part of the change.
