

Sterling Performance In Business and Law

News & Updates • August 27, 2019

We have for long been professing the indispensability of Intellectual Property for the success of an organization. This is most relevant in today's knowledge and innovation-driven economy, where our core role of protecting and enforcing intellectual property has gained even more prominence. In this pursuit of scaling up businesses by leveraging the power of IP, Safir Anand has been recognized for his phenomenal contribution to integrating business and law. Safir was felicitated by the Ex-CJI, Hon'ble Mr. Justice Dipak Misra and the President of SILF and the Bar Association of India, Dr. Lalit Bhasin at the Economic Laws Summit at Taj Mansingh on August 23, 2019 for "Sterling performance in Business and Law". The event "India Ahead: Leading the New Age - Economic Laws Summit" was organised by Legal League Consulting, focusing on innovation, investment and impact and witnessed a great line-up of eminent legal personalities. The award bears testimony to the fact that IP can catapult a business onto the path of unprecedented success. We are excited to integrate business and law for our clients.
