Contemporary Issues in Competition Law

News & Updates • February 4, 2016

A conference on contemporary issues in competition law brings together industry experts and notable speakers who piece together the the puzzle in terms of determining the right market, exclusive deals and more. The conference managed to address common issues faced by intellectual property rights holders in various areas, i.e., acquisition of IP rights, licensing and enforcement of IP, accompanied by IP valuation. A session also focused on Best Practices to ensure compliance.
