

Overview

Where Art Meets the Law

Art and antiquities law may neither be a separate jurisprudence nor a unified legal doctrine, yet its multidisciplinary nature leverages many aspects of legal protection in the regulation and facilitation of the creation, and the use and marketing of art.

ART LAW CONCERNS IN INDIA

The creation, ownership and transfer of art and antiquities conceives myriad legal concerns, including valuation, sale and transfer of property, and civil and criminal liability. Theft, counterfeiting and damage, in particular, are pervasive themes in the art world; and legal resolution is beset by conflicting claims, inconclusive documentation and application of archaic law.

Additionally, housing art collections privately or with museums and galleries, and repatriation of national treasures lost during India's colonial dominion under the British present their own legal intricacies.
